Harsh Patil

+91 98765 43210 • harshpatil110@gmail.com • github.com/harshpatil110

1 Education

B.E. in Computer Engineering 2019–2023
VESIT, Mumbai GPA 9.1/10

2 Achievements

- 1st Runner-Up, Hackup Hackathon 2024
- Solved 400+ DSA problems on LeetCode

3 Experience

Software Engineer 2023–Present
Acme Corp Remote

- Engineered and delivered a microservices migration, decomposing monolithic architecture into independently deployable services
- Optimized CI/CD pipeline reducing build times by 20%

4 Projects

kixx | **https://github.com/harshpatil110/kixx**

- Developed a high-fidelity sneaker e-commerce platform leveraging Drizzle ORM for type-safe PostgreSQL queries and eager-loaded nested data fetching
- Architected fluid data-binding UX spanning product catalogs to variant cart arrays with optimized database query patterns

Fintech-Portfolio-Dashboard | **https://github.com/harshpatil110/Fintech-Portfolio-Dashboard**

- Built a financial portfolio dashboard using TypeScript with reactive UI components for real-time data visualization
- Implemented type-safe API integration and state management for complex financial data structures
